Rockhard Range of Stoving Products to LB 569/ECS-2178

We have been asked to enlarge our successful 985 range of Rockhard stoving products and include a number of colours which are listed below. This range has been approved and is still used by companies such as Rolls Royce ; Pratt and Whitney ; McDonnell Douglas Boeing ; General Electric .

It is used in such varying areas as aero engine parts ; on metals such as magnesium ; aluminium ; steel and titanium ; and used also on heat exchangers ; undercarriage parts ; and other high exposure parts

We are constantly adding new colours to this range

APPROVALS These include

DTD 5562; Rolls Royce MSRR 9226; BAEP 3512; O/mat 7/98a; AFS538; British Aerospace BAe P 3506 (S26. 3506;); GE Engine spec A 8B 89A 1; Turbomeca LB714/LB 569/LB 547 Eurocopter ECS-2178; Messier Bugatti

NATO Stock No: 8010-99-225-3338, 8010-99-7560842 See RPS 661 / 21 ;
